## Senior Class History

$\varepsilon$XACTLY four years ago in '26, we, the members of the Hickory High Antarctic Expedition, started out in the good ship Hope to find those fabled lands of Knowledge, centered around the pole of Graduation.

The first few days were spent in perfect weather with a light breeze, Expectation, wafting our good ship forward under the skillful guidance of our captain, Margaret Abernethy, and first mate, Mrs. Donald Menzies. Gradually the sea roughened until some of the members became sea-sick and wished to disembark again, but under the advice of our pilot, Mr. Thompson, they decided to remain.

Soon a regular storm (examinations) arose and washed away those who were not securely fastened to the ship. Later, however, we became used to the storms and learned to struggle against them, with the help of our guides, the upperclassmen.

At last, after nine months of hardships, we reached our base, which we were to use in seeking the lands of Knowledge. Here, after three months' vacation, we set about building a large supply house and a great hangar, Work, which was to house our big airship, the Senior Class. Eighteen months in all, with a small vacation between, we spent under the leadership of Mary Cilley and Helen D'Anna in preparing for our great dash to the pole.

One September morn, having overcome many hardships, chief of which was Geometry, we set out on the great adventure, the quest of the fabled lands of Knowledge.

Now the pole, Graduation, is in sight after a back-rending struggle of four years. By instruments, our pilots, Miles Bowman and Chester Wise, with the help of Mr. Gwin and Miss Monroe, chief navigator and radio operator respectively, have estimated that we are directly over the longed-for spot. Alighting on the icy surface, we look for souvenirs of the flight, and by luck everyone finds a diploma; which he will show as proof of his bravery and daring.

At last, returning to our base, we celebrate our victory over the lands of Knowledge by the observance of the Junior-Senior Banquet.

We are leaving these spots for the outside world now. May those hardy adventurers who follow after us have the best of luck and everything that goes to make a prosperous adventure.

## Junior Class History

IN the year 1927 a band of girls and boys from the three grammar schools of Hickory found their way with difficulty to the Hickory High School. As green freshmen will do, we made our first error by forming a line and starting out at the end of the day, but to our great dismay all the others began rushing out; and, thinking there was a fire, we rushed too. Never having heard of Detention Hall before, we pictured it to be a very dark hall with no windows and a teacher with a long. rod in her hand. We made many more humorous errors which we will not now relate.

On entering into our Sophomore year, we were sorry to find many of our classmates left behind. But we were very glad to find that we had grown more learned in the ways of a high school. for then we could look down upon the ignorant Freshmen.

Now we are the Jolly Juniors and feel more important than the Seniors. We show our school spirit by attending the athletic games and selling candy, so that we may have the best Junior-Senior Banquet that this school has ever known.

This is all that is very important. but wait until next year and see us become very, very dignified Seniors.

## Sophomore Class History

$\mathfrak{\sigma}$HE history of the Sophomore Class is, as the cannibal who ate the alarm clock remarked, "full of pep.". Our class, numbering 115 strong, is very much alive and wide-awake.
At the beginning of last year we were made to believe that we were almost too green to exist, but as we began to find ourselves in our new surroundings, we saw that our persecutors were mistaken. In fact, we began to see ourselves as lively, striving, determinedalthough somewhat green-Freshmen. We were convinced when our Freshmen girls served at the Junior-Senior Banquet, which was a great success.

At the first of the new school year we elected Hoyle Anderson, Class President: Virginia Flowers, Vice-President, and we surely made a "lucky break" when we made Miss Morgan Faculty Advisor. We have furnished four members of the football team, nine basketball players, and four basketball men. A good many Sophomores have gone out for tennis, too. Two out of the three papers that were sent off to compete in the State Latin Contest were written by Sophomores.

We've had some great times during our two years in Hickory High, and expect to have more fun as Juniors and Seniors, but don't think we play all the time. No, sir! We're really climbing, not drifting, and we mean to get somewhere. Just watch us!

Mary Elliott Henderson.

## Freshman Class History

$\mathfrak{T}$HE history of the Freshman Class is a very short one. It $(\bigcirc$ began in September of Nineteen Hundred and Twenty-Nine when boys and girls from little settlements in and around Hickory were enrolled in the great battle against ignorance. We were not fully prepared for war, and when the first shot against the enemy was fired, we did not know just exactly what it was all about.

We were engaged in a great war and our weapons were books. The more we learned, the better prepared we were for aiming at ignorance. The majority landed their shots, but a feiw fell before the foe.

The students who had come here before us told us which teachers to beware of: those who gave you "hours" for running in the halls: those who lectured you for whispering and reading magazines in class: and those cruel instructors who made you put your gum in the wastebasket and throw Mrs. Warner's delicious hamburgers out the window.

As the close of the school year approaches, we, who have braved the battle and come out unhurt, may look back on the old year and consider ignorance partly conquered.

Mary Berry.

## Glee Club

0HERE is no doubt in the minds of anyone concerning the accomplishments of the Glee Club of Hickory High during the school year of 1929-1930.

The director of the club is Professor W. E. Boyden, of Sandwich, Mass. The splendid spirit shown by all the members of the club has assisted the director in making possible the completing of a well-balanced musical organization. They will undoubtedly compare most favorably with any in Western North Carolina.

Although there were very few trained or experienced voices at the beginning of the year, we now find some very promising talent. Considerable time was spent in the study of articulation.

After the first two months of classification, practice, and hard work, we began to receive invitations to sing for the various churches and civic organizations.

Some of these we accepted and some we did not. Up until the present time we have sung before the members of the Methodist Church, Presbyterian Church, Lutheran Church, Presbyterian Men's Club, Community Christmas Program, and the Community Devotional Meeting.

We are now preparing for the State Music Contest which is held annually at the North Carolina College for Women in Greensboro. In the contest we are entering a male quartet, female quartet, mixed quartet, male chorus, female chorus, mixed chorus, and several solos.

In addition to this we are planning a concert and operetta which are to be given after we return from Greensboro, probably during the week of graduation exercises.

Taken from the standpoint of the students the Glee Club has proved a decided success. It is well to note that all singing done by the club is unaccompanied.

A nother point of interest is that in previous years the club numbered about thirty-six; this year it numbers seventy-eight.

The Hickory Hi-Y Club of the year 1929-' 30 has been one of the best and one of the most successful since Hi-Y's were organized. This year there were seventy-five high school boys on roll.

The purpose of this organization is to create, maintain, and extend throughout the school and community high standards of Christian character.

The slogan of this organization is clean living, clean speech, clean athletics, clean scholarship, and contagious Christian character.

This year the business men of the City of Hickory have shown more interest than ever.

## Social Events

BLACKER THAN BLACK

Probably one of the most outstanding events at Hickory High School this year was the minstrel given for the benefit of the football boys. This musical comedy, written and directed by Chet Wise, was truly more than a success.

The cast consisted of thirteen boys and one girl, including the "Hickory High Harmony Hounds," a boy who could play the French harp to the satisfaction of all, the Ham and Zam boys, a young lady who danced and also two soloists of much ability. Practically every member of the show had been trained in the Glee Club.

The costuming and lighting effects contributed much to the success of the play. Champ Martin, of Hickory, acted as stage manager.

THE CAST

## THE JUNIOR-SENIOR BANQUET OF 1929

On May 17, 1929, one of the most interesting old customs of Hickory High occurred. In other words, the Junior-Senior Banquet was given. The simplicity of the Japanese setting was beautiful. Quaint hand-painted programs, miniature Japanese parasols and fans and odd Japanese napkins were all beautifully blended in with the pink and white sweet peas and candles. Tiny pink rosebuds were scattered artistically over pink crepe paper, which formed the centerpiece of the table stretching the length of the hall. The delicious food, prepared by our own Mrs. Warner, was served by Freshman girls dressed as Japanese waitresses.

To our dear faculty advisers, Miss Aiken and Miss Crawford, we owe the success of this most pleasing banquet-the best ever given in the past or to be given in the future.

## Football, 1929

When the time came for football, about forty fellows turned out for practice. A few of these were lettermen from the previous season, although very valuable men were lost through graduation. Among the lettermen were Captain Mackorell, Bus Newton, Forrest Short, Glenn Brown, Jervis Gordon, Reid Seabock, and others.

The fellows then settled down to the regular grind of daily practice. After several weeks, Dallas High came up to play the Hickory "Red Tornadoes." The Dallas boys were played off their feet and could not stand the attacks launched against them. The final score was 99-0, in favor of H. H. S.

The next game was with Glen Alpine, wich was only a repetition of the Dallas game. Hickory kept the big end of the 107-0 score.

A week later, the "Red Tornadoes" journeyed to North "Wilkesboro. This was a very tight game. The boys scored a touchdown just before the whistle and won the game- 13 to 7 .

The next week, the Waynesville Mountaineers invaded the Tornadoes. This was one of the best games booked for the season. Nevertheless, the invincible team came out on top in the 25 to 7 score.

Shelby visited us next. It was a game similar to the one before and ended with a $26-0$ score.

The best game was with Morganton High. The muddy field and drizzling rain saved the day for the opponents, causing a tie- 0 to 0 .

Granite Falls played the "Red Tornadoes" the next week. The boys outclassed them. Hickory kept the large end of the 38-0 score.

The next game was with Lenoir, who was also outclassed. The game ended in a 21 to 0 score.

The Lincolnton game was very interesting, but Coach Shores's outfit outplayed them. This was shown in the 19 to 0 score.

The final game was played against Hickory's old rivals-the Red Devils of Newton. As usual, Newton kept the small end of the score41 to 0 .

The 1929 football season was very successful, Hickory producing its first undefeated team, which was under the able leadership of Coach Shores and Captain Johnny Mackorell. Only 14 points were scored against the team, while they gained 389. Next year, Hickory expects another team equal to this one, and we think there will be one under the leadership of Captain-elect Jervis Gordon.
